

## **PRODUCT DATA SHEET**

### **2,4,6 – COLLIDINE**

**OTHER NOMENCLATURE**      2,4,6 - Trimethyl pyridine

**PHYSICAL DATA**

**Molecular Formula**                       $C_8H_{11}N$

**Molecular Weight**                      121.18

**SPECIFICATIONS**

**Appearance**                              Liquid

**Odour**                                      Aromatic

**Melting Point**                           $-46^{\circ} C$

**Boiling point**                           $170.5^{\circ} C @ 760.00 \text{ mm Hg}$

**Solubility**                              Soluble in Methanol,Ethanol,Chloroform,  
Benzene & Toluene

**Assay**                                       $> 99\%$

**PACKING**

190 kg MS Drums / 200 kg HMHDPE Drums

**HEALTH HAZARD**

May cause Eye irritation & Gastro-intestine irritation

**TARGET ORGANS**

Eyes, Skin

**APPLICATIONS**

Intermediate of Vitamin D3
