

PRODUCT DATA SHEET

BETA PICOLINE

OTHER NOMENCLATURE 3-Picoline, 3-Methylpyridine

Molecular Formula **C₆H₇N**

Molecular Weight **93.13**

CAS Registry Number **108-99-6**

SPECIFICATIONS

Description **Colourless liquid with characteristic odour**

Boiling point **144 ° C**

Moisture content **NMT 0.2 %**

Assay **Beta Picoline – NLT 99 %**
Gamma Picoline – NMT 1 %

Miscibility **Miscible with water, alcohol, ether**

PACKING

190 kg Net MS / HMHDPE Drums / ISO Tank

HEALTH HAZARDS

Flammable liquid corrosive

TARGET ORGANS

Eyes, Skin, Lungs

APPLICATIONS

Mainly used for manufacturing Nicotinic acid / Nicotinamide, insecticides like chloropyrphos, herbicides such as fluazifop-butyl and water proofing agents
